

## Solenoid Valve 1/2" BSP 230 V ac Normally Open

**Size:** 1/2" BSP

**Voltage:** 230 V ac  
**Type:** 2/2  
**Pressure:** 0.3 – 16 bar  
**Media Temperature:** - 10 to 90 °C  
**Media:** Water, Oil & Air  
**Seal:** NBR  
**Speed controls screw:** Standard on 1.1/2" & 2"  
**Body:** Brass  
**Protection Class:** IP 65 (with connector fitted)

### Function:

Used to electrically control the on/off delivery of water within the above pressure ranges.

### Basics

Some basic information to help you determine which valve you require:

Solenoid Valves require an electrical signal to open or close the valve.

- When the valve is 'Normally Closed', the valve requires electrical power to open.
- When the valve is 'Normally Open', the valve requires power to close.
