

313 Diaphragm safety relief valve. Female connections, c/w pressure gauge

Size: 3/4"

Description: Diaphragm safety relief valve.

Female connections.

Discharge overpressure 20%.

Closing differential 20%.

PN 10.

Temperature range: 5–110°C.

Max. pressure gauge temperature: 90°C.

Settings: 2,5 - 3 - 6 - 7 - 8 bar.

International approvals:

Designed for use in conjunction with heating systems and water supplies to protect the equipment and the system against damage from excess/abnormal pressure increases.
