

Frost Stat (Weatherproof)

Product Code: ATIMTA544600

Room thermostat in tight container IP54 TA - Encased thermostats

Casing:	Aluminium
Degree of protection:	IP54
Thermostat:	0 – 40 °C
Temperature rate of change:	1 °K/min
Voltage:	240 volt
Bulb:	Spiral
Max bulb temperature:	50 °C
Number of automatic cycles:	II (100.000)

Function:

Encased room thermostat, with a liquid filled sensing element having its coils outside the aluminium painted housing containing switching contacts. It is particularly suitable for the control of temperature in hostile environments such as greenhouse, stables, garages and workshops.
