

Heating Expansion Vessel c/w kit

Model: IB008PACK

Size: 8 Ltr

Product no for vessel: 02008343

- Maximum working pressure 5 bar
- Pre-charge 1.5 bar
- Temperature range - 10 °C + 100 °C
- Dimensions D 200 x 335 Height
- Water Connection 3/4"
- Weight 2.5 Kilos
- High resistant rubber bladder

Components: 8 Ltr heating vessel
Brass Cross Manifold
Mounting bracket
1/2" Safety Relief Valve 3 bar c/w gauge
15mm Combi filling loop

Approvals:- (Vessel) CE endorsed, TUV

The central heating system most commonly used in Europe and other parts of the world is a sealed system. Ease of installation makes it particularly attractive to the installer, as a sealed system alleviates the need to fit, feed and vent tanks in the central heating system.

- **System flexibility** - due to component siting alternatives
- **cost savings** - due to considerably reduced installation time
- **no feed and expansion tank** - hence avoiding 'pumping over' problems, risk of freezing up etc.
- **longer life** - due to virtual elimination of corrosion problems
- **noise reduction** - due to higher system pressure, boiler noise (localised heating) is

- significantly reduced or eliminated
- **low maintenance cost** - as equipment is virtually maintenance free, other than for periodic operational checks
