

Heating Expansion Vessel ONLY

Model: IB012EV -

Product no: 02012343

Size: 12 Ltr

Maximum working pressure 4 bar
Pre-charge 1.5 bar
Temperature range - 10 °C + 100 °C
Dimensions D 270 x 310 Height
Water Connection 3/4"
Weight 3.2 Kilos
High resistant rubber bladder

Components: 12 Ltr heating vessel

Approvals:- (Vessel) CE endorsed, TUV

The central heating system most commonly used in Europe and other parts of the world is a sealed system. Ease of installation makes it particularly attractive to the installer, as a sealed system alleviates the need to fit, feed and vent tanks in the central heating system.

System flexibility - due to component siting alternatives

cost savings - due to considerably reduced installation time

no feed and expansion tank - hence avoiding 'pumping over' problems, risk of freezing up etc.

longer life - due to virtual elimination of corrosion problems

noise reduction - due to higher system pressure, boiler noise (localised heating) is significantly reduced or eliminated

low maintenance cost - as equipment is virtually maintenance free, other than for periodic operational checks

water supply (water regulations) G.24.1 and 24.2 compliant filling loop
