

Vertical Potable Expansion Vessel

Model: IB200AFV

Model: 200 Ltr

- Maximum working pressure 10 bar
- Pre-charge 1.5 bar
- Temperature range - 10 °C + 70 °C
- Dimensions D 550 x 1135 Height
- Water Connection 1 1/4"
- Weight 42 Kilos
- High resistant rubber bladder
- Stainless steel cap and sleeve
- Replaceable food industry quality bladder (the water stays inside the bladder)
- Exterior finish of oven dried with Epoxi

Approvals: -

CE endorsed, TUV

Designed for heating installations in closed circuit, to absorb the volume increase caused by the rise in temperature of the heating fluid.

Please note: this vessel is not to be installed in an open circuit.

An additional item which should be included when purchasing a vessel is the vessel isolation connection valve. This allows the vessel to be removed for maintenance without draining the fluid from the system.
