

Inta Blending Valve for Underfloor Heating 30 - 50 °C

Model: IN421031CP

Size: 1"

Body: Chrome plated brass body
Internal parts: PT58
Nylon handle (thermo-stamped)
AISI 302 INOX coils

Specification

Maximum working pressure:	10 Bar
Minimum pressure:	0.2 bar
Maximum HW inlet temperature:	85 °C
Control range:	30 - 50 °C
Temperature scaled knob:	1 – 5
Regulation tolerance:	± 2 °C
Flow rate coefficient:	Kv 3.0

Standard approvals:

Function:

Thermostatic blending valve for underfloor heating systems
