

Inta LED Perfect Time Electronic Tap

Perfect Time is part of Inta's range of electronic time controlled taps operated by "Piezo Technology". The self closing fitting avoids the risk of taps being left on and together with that allows the user to open and close the tap according to their needs.

With a 8 second factory preset, installation or maintenance staff can easily change this time manually according to their needs. Running time adjustment is not accessible to the end users. Inta can preset a different running time upon request.

- LED colour Green
- Time controlled basin electronic tap activated by piezo switch
- Mains operated
- Filter included
- Solid brass construction
- To be used with cold or premixed water
- Water will start to flow out of the tap when the user touches the upper cap
- Water will stop automatically at the end of the present time or after the user touches the upper cap again
- Running time is easily adjustable

Max Operating pressure:	8.0 bar static
Min Operating pressure:	0.5 Bar dynamic
Factory set flow time:	8 seconds
Max Inlet Temperature:	70 °C
Power Source:	mains operated
Connections:	½" bsp
System Installation:	Basin Mounted
Max basin thickness:	26mm
