

Detachable Head Motorised Valve

Size: 22mm 2 way motorised valves with run-end micro switch and demountable head.

- 5 Wires (4 + 1 earth)
- 1 mtr cable fitted
- Valve normally closed
- Motor 230 V

Motorised zone valves have been designed to operate as on-off regulators in closed water circuits in central heating, hot water and climate control installations.

Minimum fluid temperature 5 °C.
Maximum fluid temperature 88 °C.
Maximum ambient temperature 50 °C.
Maximum static pressure 10 bar.

Complies with the 89/336/EEC European directives.
