

Pressure Reducing Valve

Series: prv115

Size: 4" 1000mm Flanged

Materials:

Body:	Iron
Seat:	Replaceable stainless steel
Diaphragm:	Reinforced Buna-N
Valve Disc:	EPDM
Maximum Working Temperature:	70 °C continuous
Weight:	25 kgs

The pilot operated reducing valve reduces a higher upstream pressure to a constant lower downstream pressure. This very accurate valve is designed to operate with a minimum of maintenance. The only moving parts in the valve are the diaphragm and the stem assembly, which are guided by an exchangeable bearing in the cover and the valve seat. Easy to install and adjust.

Standards

ASSE Standard 1003 1003; (ANSI A112.26); CSA Standard B356; Southern standard plumbing code, Military standard MIL-V-18146B and listed by IAPMO.
