

Safety Relief Valve

Series: 174A

Size: 1 1/4"

Preset Pressure: 7 bar

Kilowattage Discharge: 1301 kw

Pressure range 30 – 150 psi (2 to 10 bar)
Operating temperature range min. 1 °C Max. 140 °C.
Bronze body screwed BSP female
Stainless steel spring.
Teflon seat (avoids sticking)
EPDM membrane

Function:

Series 174A bronze body pressure relief valves are for pressure protection only of all types of hot water heating boiler equipment and hot water space heating boilers. This series has a pressure range of 30 to 150 psi (2.1 – 10.3 bar) with corresponding high rating from 650,000 to 14,370,000 BTU/hr.
