

Zip Hydrotap replacement filter cartridge

Model no: ZT002 (91240)

Replacement hygienically encapsulated taste filter

Integral submicron water filtration for superior drinking water quality

- Removes particulates contaminating the water supply
- Reduces mineral scale build up in the boiling water tank
- Removes bad taste and odour than can be caused by chlorine
- Provides great tasting, crystal clear drinking water.

Zip ZT002 replacement filter for Hydrotap Filters out chlorine taste and odour, plus micro-organisms as tiny as 1/1000th of a mm, including the parasites cryptosporidium and giardia. A filter change warning light on the Hydrotap flashes to show when a filter change is due. Filter replacement at least once each 12 months is recommended.
