

## Zip Hydroboil Accessory – Tap Font

Model no: ZT106

Colour: Gold Chrome Finish

The Zip Hydrotap font and waste allows the Hydrotap to be installed on a worktop or any suitable surface. It has its own drip tray and drains to waste and permits installation away from a sink.

Zip Tap Font ZT104. Satin Chrome. For HydroTap Drinking Water Systems. The font makes the range of Zip HydroTaps even more versatile - also incorporating a drainage system. Effectively a built-in sink, the font lets you dispense instant boiling and chilled filtered water from anywhere, on any type of work surface, rather than limiting installation to just over an existing sink, giving you more room in the kitchen.

The height clearance with the ZT106 is 225mm, allowing larger vessels such as cafetières to be filled.

(Tap not included)

Tap font complete with tap extension.
